DOHWA ENGINEERING CO.,LTD. Sp. z o.o. Branch in Poland, having its place of business at Grzybowska 4/117, 00-131 Warszawa hereby certifies that

DOHWA Polska Sp. z o.o. Sp. k., Al. Pokoju 1, 31-548 Kraków,

has duly completed multibranch design works under the contract dated 04.09.2023r., for the investment project titled:

“Construction of the railway line nb. 170 on the Katowice - state border - Ostrava.”

The project includes a section of railroad line No. 170 containing between Katowice Piotrowice and State Border stations, as well as railroad lines connecting railroad line No. 170 with Wodzislaw Slaski station (including station reconstruction) and Jastrzębie-Zdrój Centrum (including station construction), along with links to PKP PLK S.A. infrastructure.

The documentation provided under the contract covered the completion of Task 1, specifically:

- A1. Development of the Programmatic-Spatial Concept and Functional-Utility Program;
 - A2. Preparation of materials required to obtain the Environmental Decision (Environmental Impact Report, Transboundary Assessment);
 - A3. Preparation of the Environmental Impact Assessment Report and preparation and submission of the application for the Environmental Decision;
 - F1. Preparation of materials for the purposes of conducting a procurement procedure by the Contracting Authority for the execution of detailed designs and/or construction works.
- Documentation was prepared on the basis of the project implementation strategy - BIM Implementation Plan.

Implementation period: 09.2023 – 10.2024

DOHWA Polska Sp. z o.o. Sp. k. completed the commissioned works properly, in compliance with the terms of the contract, applicable technical and construction regulations, and the principles of contemporary technical knowledge.
